Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

- 1. (currently amended) A lancet comprising:
- (a) a seamless unitary member which is hollowed along at least a portion of its length, said the unitary member including a first end, a second end, and a longitudinal axis,
- (b) wherein the first end of said the unitary member is shaped to include first and second sharpened tips.
- 2. (currently amended) The lancet as claimed in claim 1 wherein said the seamless unitary member is in the form of a cylindrical tube.
- 3. (currently amended) A lancet comprising:
- (a) a unitary member which is hollowed along at least a portion of its length, said the unitary member including a first end and a second end,
- (b) wherein the first end of said the unitary member includes first and second ground surfaces which at least partially define first and second sharpened tips.
- 4. (currently amended) The lancet as claimed in claim 3 wherein said the unitary member is in the form of a cylindrical tube.
- 5. (currently amended) The lancet as claimed in claim 3 wherein said the unitary member includes a longitudinal axis, a lateral axis, a vertical axis, a horizontal plane and a vertical plane.
- 6. (currently amended) The lancet as claimed in claim 5 wherein each of said the first and second ground surfaces is a planar surface.

2

- 7. (currently amended) The lancet as claimed in claim 6 wherein each of said the first and second ground surfaces is a single angle ground surface.
- 8. (currently amended) The lancet as claimed in claim 7 wherein said the first ground surface extends from the horizontal plane at an acute angle relative to the longitudinal axis.
- 9. (currently amended) The lancet as claimed in claim 8 wherein said the first and second ground surfaces mirror one another about the horizontal plane.
- 10. (currently amended) The lancet as claimed in claim 9 wherein each of said the first and second ground surfaces extends approximately 180 degrees about the longitudinal axis.
- 11-31. (canceled)
- 32. (withdrawn) A lancet comprising:
- (a) a unitary member which is hollowed along at least a portion of its length, said unitary member including a first end and a second end,
- (b) wherein the first end of said unitary member is shaped to include first, second and third sharpened tips.
- 33. (withdrawn) The lancet of claim 32 wherein said unitary member is seamless.
- 34. (withdrawn) The lancet of claim 33 wherein said unitary member is in the form of a cylindrical tube.
- 35. (withdrawn) The lancet of claim 34 wherein the first end of said unitary member includes first, second and third ground surfaces.
- 36. (withdrawn) The lancet as claimed in claim 35 wherein said unitary member includes a longitudinal axis, a lateral axis, a vertical axis, a horizontal plane and a vertical plane.

- 37. (withdrawn) The lancet as claimed in claim 36 wherein each of said first, second and third ground surfaces is a planar surface.
- 38. (withdrawn) The lancet as claimed in claim 37 wherein each of said first, second and third ground surfaces is a single angle ground surface.
- 39. (withdrawn) The lancet as claimed in claim 38 wherein said first ground surface extends from the horizontal plane at an acute angle relative to the longitudinal axis.
- 40. (withdrawn) The lancet as claimed in claim 39 wherein each of said first, second and third ground surfaces extends approximately 120 degrees about the longitudinal axis.
- 41. (withdrawn) The lancet as claimed in claim 40 wherein said first, second and third ground surfaces are spaced equidistantly apart from one another.
- 42-53. (canceled)
- 54. (withdrawn) A lancet comprising:
 - (a) a unitary member including a first end, a second end and a longitudinal axis,
- (b) wherein the first end of said unitary member is shaped to include first, second and third ground surfaces which together at least partially define a single tip and first, second and third cutting edges.
- 55. (withdrawn) The lancet of claim 54 wherein the first, second and third cutting edges are spaced approximately 120 degrees apart from one another about the longitudinal axis.
- 56-58. (canceled).

U.S. Patent Application Serial No. 10/767,867 Amendment dated August 24, 2007 Reply to Notice of Non-Compliant Amendment

59. (withdrawn) A lancet comprising:

- (a) a unitary member including a first end, a second end and a longitudinal axis,
- (b) wherein the first end of said unitary member is shaped to include first, second, third and fourth ground surfaces which together at least partially define a single tip and first, second, third and fourth cutting edges.
- 60. (withdrawn) The lancet of claim 59 wherein the first, second, third and fourth cutting edges are spaced approximately 90 degrees apart from one another about the longitudinal axis.
- 61. (canceled)
- 62. (canceled)
- 63. (new) A lancet comprising:
- (a) a hollow unitary member having an outer wall, a first end, a second end and a length therebetween,
 - (b) at the first end, the outer wall defining a first tip and a second tip.
- 64. (new) The lancet of claim 63, wherein the first tip and the second tip are at least partially defined by first and second ground surfaces.
- 65. (new) The lancet of claim 63, wherein the first tip and the second tip are separated by first and second ground surfaces.
- 66. (new) The lancet of claim 63 wherein the unitary member is in the form of a cylindrical tube.
